

PRAIRIE PRIDE COMBO

2-8-2

Chemical composition

Component	Typical Analysis
Total Nitrogen (N)	2% (min)
Total Phosphoric Acid (P ₂ O ₅)	8% (min)
Soluble Potash (K ₂ O)	2% (min)
Calcium (Ca)	0.1% (min)
Magnesium (Mn)	0.1% (min)
Sulphur (S)	1.6% (min)
Iron (Fe)	0.079%
Copper (Cu)	0.097%
Manganese (Mn)	0.057%
Boron (B)	0.175%
Molybdenum (Mo)	0.019%
Zinc (Zn)	0.242%

Physical properties

Property	Typical Value
Appearance	Dark liquid
Specific Gravity	1.21
pH	5.1
Conductivity	43.20ms/cm

Available sizes

1000 L

Introduction

Prairie Pride Combo is a robust anti-stress liquid formula that addresses nutrient challenges for the developing crop. This specialty combination premix blend, which is adequate for spraying 320–400 acres (depending on crop stage), consists of 23.1% Prairie Pride A (PPA), 21.3% Prairie Pride B (PPB), and 4.3% Prairie Pride C (PPC). It has a high nutrient content (derived from PPB and PPC formula) and all the benefits of kelp extract, amino acids, and organic matter (derived from PPA). This formula also contains micronutrients essential for crop establishment. This single formula is designed to cater to all your crop requirements by increasing the nutrient levels in plant tissue rapidly and enabling the crop to perform its vital physiological functions uninterrupted with minimum stress.

Suggested application rates & method

The application can be started as soon as there is enough ground coverage. In case of need, repeat application 2-3 weeks after the first one. It provides a foliar boost during the growth and filling stages. Complete package 1000L is sufficient for spraying 320-400 acres depending on crop stage. Use 1-2 applications/season.

Special notes

- If used in nutrient tanks, keep the solution aerated or agitated.
- Run a small rinse cycle after using any organic liquid in drip or spray tanks.
- Check compatibility before mixing with other products, especially with pesticides and water-soluble fertilizers.
- Consult an agronomist or crop consultant for the best advice based on product usage based on the crop's condition and stage.

Precautionary statements

Keep out of the reach of children and animals. May cause mild skin irritation. Causes serious eye irritation. Wear personal protective clothing and equipment. Wash hands thoroughly after handling.
