

BERRY FERTILIZER

30-10-10+0.5Ca+1S

Chemical composition

Component	Typical Analysis
Total Nitrogen (N)	30% (min)
Available Phosphoric Acid (P ₂ O ₅)	10% (min)
Soluble Potash (K ₂ O)	10% (min)
Calcium (Ca)	0.7% (min)
Sulphur (S)	1.5% (min)

Physical Properties

Property	Typical Value
Appearance	Mix of White -Tan -Brown
Bulk Density	832 kg/m ³ (52 lbs/ft ³)
Product Sizing	Mixed Granular

Available size

25 kg, 1000 kg

Introduction

Berry Blend is a general blend to boost growth when extra vegetative growth is needed. Use through mechanical broadcast on furrows.

Suggested application rates & method

General rates are 50-75 kg per acre with a repeat application in a month.

Special notes

Use in accordance with the recommendations of a qualified individual or institution or according to an approved nutrient management plan.

Precautionary statements

Do not breathe in dust. Wear protective gloves, clothing, and eyewear. Wash face, hands, and any exposed skin after handling.
