

# VIVI HUMIFUL 0-0-1.9

## Chemical Composition

Component	Typical Analysis
Soluble Potash (K <sub>2</sub> O)	1.9% (min)
Sulphur (S)	0.1% (min)
Humic Acid	8%
Fulvic Acid	1.8%
Organic Matter	9.6% (min)

## Physical Properties

Property	Typical Value
Appearance	Black liquid
Specific Gravity	1.0
pH	11.3
EC	2.4

## Available Sizes:

- 20 L
- 205 L
- 1000 L

## Introduction

VIVI Humiful is a humic and fulvic combination product intended for use in soils and substrates. The product is formulated using premium organic ingredients designed to accelerate the high carbon-based response. It improves nutrient uptake from soils and substrates. Formula induces a high organic matter-like response in the root-zone which improves nutrient exchange and promotes essential microbial buildup. It helps to provide longer nutrient retention while preventing nutrient leaching and run-off from the root zone. Effective and regular use of this product maximizes nutrient uptake and efficiency, using less fertilizer input and suppressing root-borne diseases.

## Suggested Application Rates & Method

- With liquid blends: Use 1.5-2% of total nitrogen volume or blend volume.
- Furrow application through planter: Use 2-5 gallons/acre depending upon crop type and growth stage.

## Special Notes

- This product is not designed for foliar applications.
- Rinse the irrigation lines after use.
- It can be used along with soil-placed fertilizers, allowing to substantially reduce their input.
- Consult an agronomist or crop consultant for best advice based on local farm conditions.

## Precautionary Statement

Keep out of reach of children and animals. Wear protective clothing and equipment when handling the product. Avoid inhalation of spray and dust. As the product is concentrated, it is advised to avoid immediate contact with eyes, skin, and other body parts.

## Storage and Disposal

Keep in a cool dry place, out of direct sunlight, and of reach of children, pets, and livestock. Follow directions for fertilizer storage as per local guidelines. Recycle the package in accordance with local, provincial, and federal regulations.
