GARDEN FALL 2023 BLEND 3-2-1

Specialty NPK Blend

GARDEN FALL 2023 BLEND is designed to provide your garden with the nutrients needed to prepare for the coming year - harnessing the power of beneficial microbes for enhanced soil health and plant vitality. It is enriched with a blend of both macro and micronutrients, and soil amendments tailored to the needs of garden soils for the next growing season.

Suggested Application Rates & Method

Commercial Application(s):

- Use 250-300 lb / acre (280-336 kg / ha) depending on soil fertility levels

Special Notes

- With this product we recommend applying a 205L barrel of FISH EMULSION after putting down the GARDEN FALL BLEND.
- Use in accordance with the recommendations of a qualified individual or institution or according to an approved nutrient management plan.
- Consult a professional agriculture agronomist for long term management planning or contact our office for specific applications as needed.

Precautionary Statement

Hazardous in the case of skin contact (irritant), eye contact (irritant), ingestion, or inhalation. Prevent repeated exposure. Wear protective gloves/clothing/eyewear.

Storage & Disposal

Wash hands after use. Store in cold dry place in original package. Keep in a cool, dry place, out of reach of children, pets, and livestock. Dispose of contents in accordance with all applicable local, provincial, and federal regulations.

Chemical Composition

Component	Typical Analysis
Total Nitrogen (N)	3%
Total Phosphoric Acid (P_2O_5)	3.3%
Available P_2O_5	2%
Soluble Potash (K_2O)	1%
Calcium (Ca)	12%
Magnesium (Mg)	1.3%
Sulphur (S)	5.7%
Iron (Fe)	0.56%
Zinc (Zn)	0.01%
Manganese (Mn)	0.11%
Boron (B)	0.001%
Organic Matter	42%

Physical Properties

Property	Typical Value
Bulk Density	65 lb/ft³ (1041.2 kg/m³)

Available Sizes

25kg 1250kg Bulk
