SEED START B

Specialized Treatment

VIVI GRO
Sustainable Solutions Ltd.

SEED START B provides natural sources of micronized minerals and trace elements. It is to be used with its companion product - SEED START A. Formula has unique biological structure, rich in highly available mineral and organic elements. Nutrient cloud formed by this formula around germinating seeds helps in initial startup, root development, and productivity.

Apply SEED START B on seeds pre-treated with SEED START A by gradually adding it manually or mechanically. Blend in by aggressive mixing for 6-8 minutes to ensure uniform coating and absorption. Due to its fine micronized form, SEED START B will either be absorbed or just stick to the seed surface with the help of SEED START A.

Suggested Application Rates & Method

- Application Rate: 100-200g per bushel.

Special Notes

- Use in accordance with the recommendations of a qualified individual or institution or according to an approved nutrient management plan.
- Ensure the seed is dry before storage and there is sufficient aeration in the storage.
- Rinse the tanks after use.
- Check compatibility before use with other treatments.

Precautionary Statement

Use methods to minimize generation of dust. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. May cause skin irritation. Wear personal protective clothing and equipment. Wash thoroughly after handling. Keep out of reach of children and animals.

Storage & Disposal

Store in its original package in a cool and dry place, away from reach of children and animals. Follow directions for fertilizer storage and disposal as per local guidelines, provincial, and federal regulations.

Available Sizes

25kg

Chemical Composition

Component	Typical Analysis
Soluble Potash (K_2O)	0.04%
Calcium (Ca)	37.0%
Magnesium (Mg)	4.0%
Sulphur (S)	0.28%
Iron (Fe)	0.065%
Copper (Cu)	1ppm
Zinc (Zn)	1ppm
Manganese (Mn)	1ppm
Boron (B)	34ppm
Organic Matter	12.6%

Physical Properties

Appearance	**Tan powder**
Density	**43.69lbs/ft^3**
pH	**8.3**
