Activated Carbon 12-0-1

Registration Number: 2023015F Fertilizers Act

VIVI GRO
Sustainable Solutions Ltd.

This formula provides natural soy-based carbon source which can be banded along with other fertilizers. The product is designed to improve soil conditions and boost natural microbial activity. It also helps in retaining moisture around root zone It is recommended for use for all scales from hobby to large scale commercial production.

Suggested application rate & method

- 25-45 lbs (11.3-20.4 Kg) in seed furrow depending on soil organic matter.
- 75-100 lbs/acre (34.02-45.36 kg/ha) as a fall broadcast.

Special notes

Use in accordance with the recommendations of a qualified individual or institution or according to an approved nutrient management plan. Consult a professional agriculture agronomist for long term management planning or contact our office for specific applications as needed.

Caution

This product contains soy. Adverse reactions may occur in sensitive persons. If skin contact occurs, wash with soap and water. Wear dust mask and protective gloves. If allergic reaction occurs, seek medical attention.

Precautionary Statement

Use methods to minimize generation of dust. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. May cause skin irritation. Wear personal protective clothing and equipment. Wash thoroughly after handling. Keep out of reach of children and animals.

Storage & Disposal

Store in its original package in a cool and dry place, away from reach of children and animals. Follow directions for fertilizer storage and disposal as per local guidelines, provincial, and federal regulations.

Available sizes

25kg 1000kg Bulk

Typical Analysis

Total Nitrogen (N):	12% min
Soluble Potash(K_2O):	1% min
Total Amino Acid:	9% min
Organic Matter:	20% min
Moisture	3% max

Physical Properties

Appearance: Black granules
Granule Size: 3-4mm size.
Density : 946 kg/m^3 (46.5 (lb/ft^3)
